

### Lane Analysis

Selecting a lane conditioner begins with understanding your center. QubicaAMF has developed five simple questions to determine which combination of products is right for you. Without asking these questions, you could be paying for technology you don't need and selecting a product that won't work well with your lane conditions, lanes, bowlers or the volume of your business. Contact QubicaAMF for a free lane analysis using our exclusive Lanalyzer™ program to determine which product is the best. Call (866) 460-QAMF (7263).

### Alcohol Control System

The Spirit Liquor Control System from Alcohol Controls portions liquor to the size determined by management. Every shot is recorded, so bartenders can be held accountable for selling every drop of liquor they pour on their shift. Spirit software is free with every system purchase. For more information, call (800) 285-2337 or go to [www.ASAlcoholControls.com](http://www.ASAlcoholControls.com).

### Chicken Service

Broaster Recipe and Broaster Recipe Express licensed registered-trademark programs combine The Broaster Company's high quality foodservice equipment, including the new VF-2 ventless fryer, with proprietary fresh and frozen food products featuring uniquely delicious flavor profiles. Broaster charges no franchise, licensing, or royalty fees for either branded food program; both programs offer branded packaging, point of sale materials, on-site training, marketing support, and a wide range of supplies and accessory equipment. For more information, call (800) 365-8278 or go to [www.broaster.com](http://www.broaster.com).

## The New Pedestals Are Here!

- ★ Larger Viewing Area
- ★ Longer Lifespan
