### Coin-Op Game

*Tommy*, the ultra-'90s rock opera by The Who, is back in a big way. The perfect complement to cool-again bowling, Stern Pinball's new "Tommy" game features incredible graphics on the case and 21-count 'em-hits performed by original cast members from 1993's Tony Award-winning Broadway show. ### Lane Machine

Authority22 by Brunswick features Accu-Ject precision application of conditioner to surface and a micro-processor that allows users to customize every aspect of operation easily, from basic machine settings to patterns. The basics haven't been neglected either. The electrical system uses solid state technology, and tanks are large enough to dress 40 lanes without refilling.
