

**HD- NO OTHER POST
EVEN COMES CLOSE**

Flexstake HD is an all weather, ground mounted delineator that can take up to 100 vehicle impacts at 55mph. It is unbeatable in areas where ordinary markers suffer high failure rates, such as parks. Some HDs are in service after *eight years* of use. Call Flexstake today!

**WEATHER MEASUREMENT AND
IRRIGATION CONTROL**

For over 30 years we've been setting the standards for weather measurement and irrigation control. Our new ET107 Evapotranspiration Monitoring Station uses research-grade weather sensors and our CR1000 datalogger to measure the water your park needs and then control your sprinkler system to deliver just the right amount. Campbell Scientific: when measurements matter.

SHAWNEE SPORTS COVER

Americana's Shawnee cover is made from recycled metals with an environmentally friendly powder coated finish. Snap-together roof panels are leakproof and available in aluminum or Galvalume steel. The gutter will dispense with water in a convenient matter, eliminating a deluge of rain water down the neck. For more information, call Americana Building Products, a quality manufacturer since 1947.
