

The Broaster Company by Mark Markwardt

The Broaster Company offers three convenient branded food programs that are perfect for tourist attraction and park operators. Each program incorporates a combination of top-quality foodservice equipment and uniquely delicious foods, all with no licensing, franchise or royalty fees. Additionally, supplies, accessories, supporting equipment, packaging, signage, POS materials and training are available, all from a single source.

Genuine Broaster Chicken[®], Broaster's signature program, is built around the Broaster[®] pressure frying process, which seals in the natural flavor of chicken and other foods while sealing out the oil. The result is more tender, juicy, and flavorful foods that have lower carbs, less fat, fewer calories, and better taste. High-efficiency Broaster[®] pressure fryers are available in three compact models offering the capability to cook to perfection 20, 40 or 64 pieces of fresh chicken in less than 10 minutes!

Broaster[®] Recipe Express combines Broaster's

compact ventless countertop frying equipment with its line of quick, convenient grab 'n go foods. These delicious selections are carefully marinated, coated, and seasoned with proprietary ingredients, then quick-frozen for your convenience. You control costs by preparing in minutes only what you need. And, you don't

need to install costly hoods and ventilation systems. Broaster's enclosed ventless fryers, offered in 2 pound and 3 pound capacity models, feature built-in fire suppression systems and fit on most countertops, so no kitchen is needed.

Broaster[®] To Go Authentic Pizza, Broaster's newest food

program, begins with delicious frozen pizzas pre-assembled with America's most popular pizza toppings – cheese, sausage, pepperoni and combo. There's even an awesome-tasting breakfast pizza available to assist you in covering all day parts. Additionally, Broaster offers a choice of reliable and best-quality pizza ovens.
