

World's Finest Since 1954

Sky Cafe Catering Livonia, MI

The Sky is the Limit for This Self Made Entrepreneur

Jack Taylor needed a convenient place for his hotel customers to get a good, quick meal. That is how Sky Cafe was born and Broaster was glad to help.

Jack Taylor is a self made man. He has several investments including a national hotel chain across the street from his newly opened convenience store. When the opportunity came around to add a nationally recognized food program to his new convenience store, The Broaster Company was on a very short list. Jack was interested in giving his hotel customers a convenient place to get a good meal, that is precisely the reason he built this state-of-the-art convenience store and added Broaster Chicken® to the menu.

As is apparent from the vast expanse of new menu boards that grace the deli area, Jack was not satisfied with merely offering Genuine Broaster Chicken®. While he does offer GBC in 2- to 4-piece

meals and larger family packs to go, Sky Cafe also offers a wide array of Broaster® Recipe foods including shrimp, cod, catfish, chicken tenders, onion rings, jalapeno peppers, mozzarella sticks, popcorn chicken, potato wedges, chicken wings, and burritos; and that's not all. They have a wide variety of subs, pastas, salads, pizzas and paninis on their menu as well. With such a huge selection, even the pickiest diner can find something they like.

The Sky Cafe is solely a take-out business and Broaster's branded packaging is a major tool in Jack's arsenal. Small snack boxes to large family packs act not only as a vessel to hold the food, but also a walking billboard advertising Broaster Chicken®.
